Repository Link:

<https://github.com/johannesSin/FerchauRentApp>

See README.md in the linked repository for a detailed explanation how the software can be tested.

Programmiersprache:

Objektorientierte Programmiersprache - Java

Apache distribution:

XAMPP is easy to use and contains the MySQL database for testing the application.

Datenbank – MySQL:

I choose an easy to use database which uses SQL because this a common used one and I'm feeling comfortable with it.

GUI:

I didn't implement a GUI.
